NVEC LINE EXTENSION POLICY

Effective 2/01/02 we shall request a signed copy of a contract between the builder and the owner for a new house before we will extend electrical service to someone who says they are going to build a new home. The customer also needs to be aware that if no construction has been started within 6 months, we will bill you for the total cost of the line which includes labor and materials.

This policy also pertains to mobile homes in which case a signed agreement about the purchase and delivery date will suffice.

We will at once discontinue hooking up 4x4 and 4x6 posts for PERMANENT meter loops. These should only be used for temporary service. No meter loop shall be connected that has to be braced with support poles. If the customer does not provide a post with 5" top either womanized or creosote it shall not be connected.
